

GuestPromoter™ is the most complete and effective guest experience management system in existence.

Competitive Advantage

The insights found by using GuestPromoter™ can help create product, process and service improvements that help your business outperform your competition. While measurement is critical, sifting through the data to find the pieces that can help you do so is even more critical. When using these insights strategically, you'll gain a competitive advantage, increase guest lifetime value (LTV) and ultimately boost bottom-line results. GuestPromoter™ is the best and only VoG™ program that can help you turn your data into dollars.

Program Benefits

GuestPromoter™ allows you to '86' ineffective marketing efforts thus saving money on transaction and acquisition costs. It also allows you to stop 'feeling around in the dark' when it comes to trying to understand what guests think about you and your business.

Armed with much better information about guest wants and demands can lead you to create better marketing solutions or opportunities to increase guest acceptance and loyalty to your products and services which always leads to higher sales and profits.

By knowing what's on the minds of your guests, you can also more quickly put into place, those efforts that can and should be utilized to extend your products and services to a greater number of potential guests by matching the desires and wants of existing guests with an even greater number of potential guests in your market.
